CONSTANTINOPLE, September 4.-A number of the shops and bazaars were opened during yesterday for the first time since the attack by Armenians upon the Ottoman Bank. No disturbances occurred, but the populace evidently fears a repetition of the scenes of last week. The arrests of suspected Armenians continue.

Additional facts concerning the recent massacres are coming to light. It is now estimated that 5000 persons perished, and that scarcely a male Armenian escaped in the Hassim Pasha and Haskoi quarters. Forty-five women and children sought refuge on the roof of a house, where they were discovered, slaughtered, and their bodies thrown

into the street.

The Turkish officials are continuing the work of clearing the khans of the Amenians who have been hidden there, and the foreign consuls are supervising this work to see that the conditions prescribed by the representa-tives of the Powers are carried out. These conditions provide that the consuls must consent to the entry of the houses, but no Armenians can be arrested without the consent of the consuls, and all arms and ex-plosives will be handed over to the Govern-

PUT DOWN BY FEDERAL TROOPS. A Fatal Uprising in the Seminole Nation Suppressed.

News from the Seminole Nation in Kansae says an uprising among the "squaw men" has been partially subdued by the arrival of troops from the First Cavairy. Two hours before the arrival of the military the before the arrival of the military the "squaw men" and full-bloods had a pitched battle, in which three full-blood Indians were killed and two "squaw men" injured. One hundred and fifty "squaw men" com prised the attacking party, and chasel 300 full-bloods and half-breeds through the The trouble between the "squaw men." or

white men who have married into the Sem-inole tribe, has been in progress several weeks, or since the last meeting of the Sem-inole Council, when a law was passed order-ing the immediate expulsion of all white men from the nation. For several years it has been the practice of white men to go into the Seminole country and marry squaws.
This, according to Seminole laws, entitled them to sixty acres of land. The white men have selected the choicest bits of land, and have frozen out the full-bloods and halfbreeds. Hence the law of the Council and the subsequent trouble. An effort of full-blood Indian police to put into force the decision of the Councii, led to the revolt, which has been in progress ten days. The presence of Federal troops will probably preent further trouble.

RIOTERS BURST BOMBS, Many Killed in Constantinople and a Bank

Attacked. A great many persons have been killed in the riots at Constantinople, Turkey. The official account attributes the riots to an organized effort of the Central Committee of the Armenian revolutionists to stir up a

revolt.

The disturbers suddenly entered the great hall of the Ottoman Bank in small groups, armed with revolvers, daggers and dynamite bombs. An officer of the guard demanded to know their business. Without reply they blew out his brains, then killed and beheaded the gendarmes, throwing the bands into the street. heads into the street.

Then they closed the bank doors and threw bombs into the street. Four Turkish women

criving by in a carriage were blown to piece by one bomb. Two French employes of the bank, while descending from a window by rope, were wounded by an explosion.

The rioters also captured a hotel, an bombs, bullets and other missiles raine

FLYING MACHINE A SUCCESS.

Professor Lamson's Invention Through the Air at Old Orchard, Me. Charles H. Lamson, who has been exper menting for some time at Portland, Me., o kites and aerial ships, succeeded in floating what is said to be the largest airship eve what is said to be the largest airship ever sent independently into the air, and in car rying, by this means, what is said to be the greatest weight to the highest altitude of record. The kite, when in the air, resen-bles two large oblong boxes parallel to ead other and attached to each other in the mi-dle. It took fifteen men to carry the kite ship into the field from which it was to sent up. The retaining cord was a lar braided window cord tested to a pull of 5 pounds. This was made fast to a huge r and four men attended to it. About 400 f of the rope was run out along the grou
